

**LANGLEY
POLICY
DIRECTIVE**

Directive: LAPD 1820.1

Effective Date: April 23, 2012

Revised: June 14, 2013

Expiration Date: March 31, 2017

Responsible Office: Office of Human Capital Management

Subject: Smoking Control Program

1. POLICY

a. It is the policy of this Center that all employees will work in a safe and productive working environment. In compliance with Executive Order 13058 dated August 9, 1997, this policy will ensure that employees and the general public who visit the Center, or use its facilities, will not be exposed to tobacco smoke in any building or facility except by voluntary entry into those specific areas designated as "smoking" areas.

(1) Smoking to include Tobacco and Electronic Smoking is prohibited inside any building on the grounds of NASA Langley Research Center, and inside any buildings owned, rented, or leased by the executive branch of the Federal Government.

(2) Smoking is prohibited inside any vehicle owned or managed by NASA or the General Services Administration

(3) Smoking is prohibited inside any aircraft owned, operated, or managed by NASA or the General Services Administration.

(4) Smoking is prohibited outside all buildings within 50 feet from primary entry ways, handicap ramps, areas in front of air intake ducts, and operable windows.

b. Primary entry ways are those areas used mainly for ingress/egress of employees and customers on a regular routine day to day basis into buildings or complex. Often these entries are determined by available parking which is adjacent to the entry ways. Complexes are defined as those buildings that are connected but have been designated with A, B, or C, etc.

c. Some areas outside of entry ways not used on a routine basis by a majority of employees or customers may be designated as a smoking area as long as they are not within 50 feet of operable windows and air intakes. No more than 50 percent of entry ways into a given building or complex may be designated as a smoking area. Facility Safety Heads/Facility Coordinators (FC) shall designate smoking areas, with consultation of an existing Facility Manager. FSH/FC will insure that designated entry ways are properly identified with the appropriate signage as indicated in paragraph 5e.

d. The presence of ash receptacle(s) outside entry ways are primarily for disposal of tobacco waste, and do not automatically constitute an entry way as an approved designated smoking area. Facility coordinators/managers are encouraged not to place ash receptacle(s) within 50 feet of primary entry ways.

2. APPLICABILITY

This policy is applicable to all on-site employees: civil service, military, contractor, NASA exchange personnel, grantees, and research associates. It should be tactfully applied to all Center visitors.

3. AUTHORITY

- a. Executive Order 13058, "Protecting Federal Employees and the Public from Exposure to Tobacco Smoke in the Federal Workplace."
- b. NPR 1800.1, "NASA Occupational Health Program Procedures"

4. APPLICABLE DOCUMENTS AND FORMS

None

5. RESPONSIBILITY

- a. Employees
 - (1) Adhere to this policy.
 - (2) Bring unresolved conflicts to the attention of the appropriate supervisor.
- b. Supervisors
 - (1) Ensure the Center's smoking policy is implemented in their areas through their designated Facility Coordinators.
 - (2) Serve as liaison to employees, through the Occupational Health Office, regarding smoking cessation programs and resource information available through LaRC and the community.
- c. Facility Coordinator
 - (1) Assure that signs designating smoking areas are posted only in areas approved for smoking.
 - (2) Enforce the Center policy on Smoking Control.
 - (3) Report any issues to the Head, Occupational Health Office (OHO)

d. Head, OHO

(1) Act as final authority on all unresolved issues that arise relative to the Center's Smoking Control policy.

(2) Chair an ad hoc committee comprised of Langley Labor Relations Officer and a representative designated by AFGE Local 1923 to review the designation of smoking areas.

e. Safety and Mission Assurance Office (SMAO)

Issue "Smoking Permitted" signs to Building Coordinators upon approval of the Head, OHO.

6. DELEGATION OF AUTHORITY

None

7. MEASUREMENT/VERIFICATION

None

8. CANCELLATION

LAPD 1820.1 dated May 18, 2007.
